

EDUCATION

Rochester Institute of Technology (RIT)

Bachelor (2024) and Master (2026) of Science in Game Design and Development

Rochester, NY

Aug 2021 – May 2026

- **GPA:** 3.98/4.0, Summa Cum Laude; consistently achieved Dean's List
- **Honors:** Presidential Scholarship recipient, Performing Arts Scholar

SKILLS

Languages: C#, C++, JavaScript, Typescript, R, Python

Engines: Unity-6, Unreal Engine-5, Monogame

Process: Agile, Scrum, Kanban

Tools: JetBrains Rider, Visual Studio, VS Code, R Studio, Photoshop/Gimp, GitHub

Frameworks: Git, Node.js, Express.js, Sequelize.js, PostgreSQL, React, Astro, AWS, HTML/CSS

WORK EXPERIENCE

Producer/LLC Founder *Trashtronauts LLC - Space Raccoons : Raccoons in Space* Rochester, NY May 2024 – Present

Led the design and development of the core game systems. In addition, led the prototyping efforts (Gimp, Photoshop, Python), managed production costs, specifications, and deadlines. Project has undergone successful Kickstarter funding and is in production. <https://www.spaceraccoons.net>

Technical Designer *Unloaded Dice Games*

Rochester, NY Aug 2025 – Present

Led the overall design, prototyping, user interface, and systems programming efforts (including digital simulations), incorporating user feedback and data to inform design decisions using C#. Coordinated closely with cross-disciplinary team members to maintain project design vision, while maintaining and updating comprehensive design documentation.

Graduate Research Assistant *RIT College of Computing & Information Sciences* Rochester, NY Sept 2025 – May 2026

Created an Agile retrospective instrument for iterative process improvement on small teams to aid in identifying high level trends in team dynamics grounded in Agile methodology values. Performed data cleaning, statistical modeling and exploratory data analysis in R.

Teaching Assistant *RIT College of Computing & Information Sciences*

Rochester, NY Jan 2022 – May 2026

One of the top-rated teaching assistants in the department providing teaching assistance for numerous programming classes in a variety of languages (C#, JavaScript, Python, Typescript). In addition, provided regular tutoring for students.

Backend Developer *Crowd Comic*

Rochester, NY May 2024 – Aug 2024

Developed an interactive React web app, contributing to schema design and S3 integration for image storage. Developed queries using ORM (Sequelize.js) and TypeScript for content publishing. Enhanced the front-end with refined components and smoother transitions. Integrated AI tools in a Discord bot to parse and validate raw availability data, streamlining development processes.

Developer *Dedalus Software House*

Genoa, Italy May 2023 – Aug 2023

Designed and developed multiple Unity projects using C# in an Agile environment. Participated in all Scrum ceremonies, helped to groom backlog stories with team members. Participated in GitHub pull request reviews on developed features.

PUBLICATIONS AND POSTERS

- **William C. Tallarico, Max James White, Erika S. Mesh, and Nicolas LaLone (2026). Agile Manifesto at Play: Lessons Learned from Student Game Design Teams.** In Proceedings of the ACM FSE Companion Conference, Montreal, Canada. <https://doi.org/10.1145/3803437.3806369>
- **Poster Presentation at the RIT Graduate Showcase - 2026:** Presented a poster on the results of *Agile Manifesto at Play: Lessons Learned from Student Game Design Teams*.
- **Conference Delegate Vertically Integrated Project Consortium - 2025:** Served as RIT's sole graduate student delegate at the 2025 Vertically Integrated Project Consortium Annual Meeting, presenting research on value-based Agile retrospectives for process improvement.
- **Conference Presenter: Serious Play Conference - 2025:** Selected to represent Rochester Institute of Technology and to discuss the echoes project at the annual Serious Play Conference.

HONORS & AWARDS

- **Treasurer Flag Football Club - 2025–2026:**
- **Trumpet Player RIT Jazz Ensemble - 2021–2024:**
- **Eagle Scout Troop 341 - 2021:**
